## How To Measure Your Ring Size

1. Cut a strip of paper no wider than 6mm.
2. Wrap the paper around your finger, and mark the paper where it meets.
3. Check that it slips over the joints of the finger without difficulty.
4. Measure the marked length of paper in millimeters (mm) and compare it to the metric row in above size chart.

This should give you a good idea of your ring size.

If your ring falls between sizes, order the next largest ring size.
