### P5X: Lamborghini Edition

The fastest and most technologically advanced triathlon bike of all time now features bold new artwork by Lamborghini's Centro Stile, the world-famous design lab behind such breathtaking vehicles as the Huracán and the Aventador. With Lamborghini's iconic yellow topcoat and Y-shaped detailing, as well as a seatpost number stamp denoting each model's position in a production run of just 25 bikes, this limited-edition P5X combines Lamborghini-inspired style with a singular goal: Helping triathletes achieve their personal best. As Triathlete magazine puts it: "The ultimate goal of this bike is to meet the specific needs of triathletes by offering an abundance of storage with an easy-to-adjust frame, making it arguably the most user-friendly superbike available."
