## Treatment Menu

### MicroNeedling (face & body)

Activate your biology. Induce natural collagen production. This treatment uses microneedles to trigger, assist and elevate your skin's natural rejuvenation process. A non-invasive treatment with little downtime, initiates a natural healing process that continues to work and function beneath the surface of your skin for months after the treatment; benefitting underlying health and structure while also enhancing everything you do for your skin. Ask us about how we can help you with a plan to begin building a healthier, more sustainable foundation for your skin. Strong, healthy, radiant skin not only looks great, but is less susceptible to issues and conditions.

### IPL Hair removal

Intense pulsed light that removes unwanted hair permanently through a cure of treatments.

### IPL Photorejuvenation

Intense pulsed light that boosts collagen, treats age spots & sun spots, diminishes broken capillaries, spider veins and helps diminishes redness such as couperose and rosecea.
