

Perfect against a wall!

Harvester Greenhouse

The Harvester Greenhouse is completely enclosed for maximum strength, insulation, and solar heat collection. The Harvester provides the best of both worlds: a double-tiered bench frame maximizes your growing area on one side and a single bench frame on the other side provides is ideal for taller plants and provides easy-access workspace.

All Harvester Greenhouses come with a large, louvered air vent and are covered with advanced double-walled Solexx paneling. The Harvester, like all Solexx greenhouses, is freestanding and requires no special foundation or site preparation - just level the ground beneath it.

Harvester Greenhouses include:

- Heavy-duty composite frame
- Twin-wall 3.5mm or 5mm Solexx panels
- Easy-Flow Louver
- Double-tier, full-length bench frames
- Two full-length hanging rods
- New stronger and lockable door
- Sturdy, built-in base, requires no foundation
- 10-year limited warranty
- FREE delivery! (in the contiguous 48 states)

Sizes Available	3.5mm	5mm
8' L x 8' W x 8' H	G-408	G-408-SP
12' L x 8' W x 8' H	G-412	G-412-SP
16' L x 8' W x 8' H	G-416	G-416-SP
