# BONIDE TURBO SPREADER STICKER

TURBO Spreader-Sticker is a biodegradable, combination spreading sticking and penetrant agent designed to provide better distribution and adhesion of all types of insecticides, herbicides and fungicides (liquids or wettable powders).

TURBO helps your chemicals stick to the leaf of the plant and spread out evenly on the leaf to maximize effectiveness. By providing better distribution and adhesion of lawn & garden chemicals you can achieve greater effectiveness from your sprays and reduce leaching and product waste.

With TURBO, you get greater effectiveness from the active agents in your lawn and garden chemicals, allowing you to achieve control of insects, diseases and unwanted vegetation faster with fewer applications, thus reducing your usage of insecticides, herbicides and fungicides.

## DIRECTIONS FOR USE

Mix 1 Tablespoon of Bonide TURBO Spreader-Sticker per gallon of prepared spray solution.

Always read and follow the label of the insecticide, herbicide or fungicide to be used with this product. Always refer to the pesticide label for additional directions or precautions. Not for aquatic use.

Store in original container, in an upright position, away from children and pets. Container Disposal, place in trash or offer for recycling if available.

## PRECAUTIONARY STATEMENTS
